2025/12/01 10:46 1/5 Upgrading TapeMaster

Upgrade TapeMaster

Upgrading TapeMaster is a simple process that maintains your server connection and user details during the uninstallation of your current version and installation of the new release.

Download Installer

Download the TapeMaster executable:

- TapeMaster 64 Bit
- TapeMaster 32 Bit

Remove Current Installation

The following instructions are the suggested method for Windows 10.

If you are running another operating system, please follow the instructions for that system.

- Open the Start menu.
- Click Settings.
- Click System on the Settings menu.
- Select Apps & features from the left pane to display a list of all installed apps.
- Select TapeMaster from the list by left clicking.
- Click the Uninstall button that appears.
- Click the Uninstall pop-up button to confirm.

Install New Release

Locate the executable you downloaded, called setup.exe, and double click to initiate the installation.

Click Next > to start the Install Shield Wizard.

After reading the License Agreement click Next > to proceed.
