Upgrading TapeMaster

Upgrading TapeMaster is a simple process that maintains your server connection and user details during the uninstallation of your current version and installation of the new release.

These instructions are for upgrading TapeMaster only, such as a stand alone install that accesses a Framework Server on a remote connection.

Download Installer

Download the TapeMaster executable:

- TapeMaster 64 Bit
- TapeMaster 32 Bit

Remove Current Installation

The following instructions are the suggested method for Windows 10.

If you are running another operating system, please follow the instructions for that system.

- Open the Start menu.
- Click Settings (Gear icon).
- Click System on the Settings menu.
- Select Apps & features from the left pane to display a list of all installed apps.
- Select TapeMaster from the list by left clicking.
- Click the Uninstall button that appears.
- Click the Uninstall pop-up button to confirm.

Install New Release

Locate the executable you downloaded, setup.exe, and double click to initiate the installation.
