2025/04/28 16:58 1/4 Upgrading Server Utilities

Upgrading Server Utilities

Upgrading the Server Utilities is a simple process.

Download Installer

- Server Utilities 64 Bit
- Server Utilities 32 Bit

Remove Current Installation

If installing Server Utilities for the first time skip this step.

The following instructions are the suggested method for Windows 10.

If you are running another operating system, please follow the instructions for that system.

- Open the Start menu.
- Click Settings (Gear icon).
- Click System on the Settings menu.
- Select Apps & features from the left pane to display a list of all installed apps.
- Select TapeTrack Server Utilites from the list by left clicking.
- Click the Uninstall button that appears.
- Click the Uninstall pop-up button to confirm.

Install New Release

Locate the executable you downloaded, setup.exe, and double click to initiate the installation.

Last update: 2025/02/05 01:29

Click Next > to start the Install Shield Wizard.

After reading and agreeing to the License Agreement click I accept the terms in the license agreement and Next > to proceed

Confirm the installation directory is correct, or click Change to select another installation directory. Click Next > to proceed.
