Troubleshooter: Adding Volumes

The purpose of this troubleshooter is to diagnose why volumes in TapeTrack can not be added.

To diagnose why you cannot add volumes, select the error presented:

Security does not allow this operation

The error **Security does not allow this operation** indicates your user ID does not have sufficient access rights to add volumes to TapeTrack.

To addvolumes from TapeTrack you will need to either:

- Have you administrator raise your access to include Alter rights.
- Have a user with **Alter** rights add the volumes for you.
