2025/12/01 08:54 1/1 Troubleshooter: Slotting

Troubleshooter: Slotting

The purpose of this troubleshooter is to diagnose why volumes in TapeTrack are not being slotted.

The symptom of slotting not working is that when volumes are moved to a repository that has slotting enabled, the volume does not automatically get a slot assigned.

To use the troubleshooter click on the appropriate \mathbf{Yes}^{\bullet} or \mathbf{No}^{\bullet} button.

Was slotting previously working?
