2025/12/01 07:44 1/1 TMSSKERBEROS

TMSSKERBEROS

By default TapeTrack Command Line programs use the -S argument to pass the User and password for authentication.

If a Windows Command Line program wishes to use the current Windows User and authenticate via Kerberos Single-Signon, the TMSSKERBEROS should be set. The value of the variable is not consequential.

This environmental variable is only available on the Microsoft Windows platform.
