2025/12/01 06:28 1/1 TMSSPWPATH

TMSSPWPATH

By default, when TapeTrack Command Line Programs use the -S argument and:

- 1. Specify no password file, and
- 2. Don't use the prompt or literal password syntax.

then, the password will be loaded from:

- C:\tapetrack\pw\user (Windows)
- \etc\tapetrack\pw\user (all other platforms)

where, user is the name of the user that is logging-on.

When the TMSSPWPATH environmental variable is set, the file will be loaded from the directory specified as the TMSSPWPATH value.
